• To approve amount totalling $3,251.07 (from main account, as listed in this report) for payment.
Staff
Under the National Quality Framework our staff are Educators whose role is to

- support children’s learning through a variety of play and leisure experiences
- foster children’s well-being and learning through intentionality and collaboration
- develop cultural confidence
- develop reflective practise
- explore their own beliefs and use theoretical perspectives

We are required to have a nominated Educational Leader, who oversees the development and delivery of the program – this is the centre’s Regional Manager – Amanda Cincotta

The Centre is also required to have a designated “Responsible Person” and Nominated Supervisor on the premises at all times. This is usually the Co-ordinator; however, in the Co-ordinator’s absence Certified Supervisors can also fulfil this role. Please refer to the staff roster on the parent information board for staff positions and responsibilities.

Educators are currently completing evaluations of our internal communications systems which will assist in the improvement of effective transfer of information, as well as informing our future training and development needs. All staff are also undergoing performance appraisals which will inform their future training and development.

Enrolments
Current average enrolment numbers at the morning sessions are 45 and afternoon averages are 122.

Attendance at VC was an average of 80 children each day.

Preparations are currently underway for Kindergarten orientations and we have been invited by Tim Dodds to attend the Information Session on Wednesday 17th August.

Families have been issued with an invitation to re-enrol for 2017. This process has been started much earlier than in previous years to manage the volume of bookings and also the many changes which are received during the process. New Families to the centre are encouraged to attend an orientation session prior to their child’s commencement at the service. For kindergarten children, this is often most appropriate during the January Vacation Care period.

Programs
A review of culturally inclusive practises will take place during term 3. This involves ensuring that Educators are aware of the diverse cultural and social backgrounds of all enrolled children and are actively inclusive of these backgrounds in their practice.
In addition to our regular Vacation Care and Quality Area surveys an annual program survey will be issued in the September newsletter. In order to include each family’s background, acknowledge the needs and interest of each child and develop cultural competence Educators need input from families. This allows them to plan a relevant program which meets each child’s and family’s’ needs.

All families are now emailed a Weekly Summary which summarises the main events and program ideas of the week. We welcome your feedback, thoughts, comments and suggestions for inclusion in this publication.

**National Quality Framework**

Community participation in the service requires us to more regularly seek input from families- this includes issue of Child Profiles twice per year, greater attention to family backgrounds in planning and creating programs, sourcing more detail from families about their children and their expectations of our service. Families are invited to learn more about their child’s learning and development through review of the program, daily journals, children’s work displayed and through formal and informal discussions with Educators.

Termly Centre goals now reflect these requirements and staff are continually working on the completion of a Quality Improvement Plan to identify areas of the service which require further and continuous development. Please see our QIP on display and we wold be grateful for any input you may have.

Assessment and ratings visits are not yet scheduled.

So far, 6 of our Centres have been rated- all have achieved the standard of “meeting” the elements with many centres receiving an “Exceeding” rating in one or more Quality Areas. This is a great endorsement of our systems, policies and the practice, professionalism and relationships developed by our staff.

In term 3 Audits for Quality Areas 3 (Physical Environment) and 1 (Educational Program and Practice) will be conducted by the Centre’s Regional Manager, Amanda Cincotta.

**Community**

Date of Community meeting is Thursday September 22nd at 5pm.
